

2023 Wisconsin Integrated Resource Management Conference: Call for Presentations

We are returning to the Hyatt Regency in Green Bay for 2023! WIRMC 2023 (Feb 22-24) is looking for engaging presentations that showcase the advancements in solid waste and resource management.

Some topics of interest, as noted by WIRMC 2022 attendees, include but are not limited to: compost/organics management, legislative change, daily cover, PFAS, landfill design and gas management, innovation in management technology, public outreach and education, recycling forecasts, and MRF operations.

Presentations will be delivered in person. Every presentation will have a moderator available to provide support to the speakers and to help engage attendees.

Presentations are scheduled for one hour, and are expected to be 50 minutes followed by an additional 5-10 minutes for Q&A and discussion. For those interested in providing a "workshop style" presentation of 2+ hours, please note this opportunity is only available on Wednesday or Friday (if this is your preferred presentation, please select one or both of those days).

Presentation proposals are due no later than September 12, 2022. The conference committee will be making presentation decisions in early October. You will be notified by late October.

Please enter all information requested below in full.
